

# Make Joint Prep Simple!

## — THE —<sup>®</sup> CARTILAGINATOR

*A revolutionary joint preparation technology designed to precisely prepare the indicated joint in a fast and more efficient manner*

**X PRECISION**

Engineered to control the depth of joint preparation and **minimize bone removal**

**X EFFICIENCY**

Designed to **decrease joint prep time** compared to traditional joint prep tools\*

**X CONFORMITY**

**Anatomically contoured** to match the joint, facilitating congruency of the distal and proximal joint surfaces

**X EASE OF USE**

Allows for a **minimal incision** surgical approach
